

Technical Data Sheet: CR91380

Product manual	CR91380 is a six-color special organic silicon modified UV resin, which has anti-fouling and anti-graffiti effect, high reactivity, good compatibility with other UV resins, good yellowing resistance, high hardness, increase matte efficiency, and the surface is delicate and smooth, It has good wettability and can promote mirror leveling. It is particularly suitable for various plastic overglaze anti-graffiti UV coatings, hardened UV coatings for wood floors and cabinets, and various matte UV coatings and inks.		
Product features	Good stain resistance and anti-graffiti		
	Smooth surface		
	Self-cleaning		
	High hardness and wear resistance		
Recommended use	Coatings		
	Inks		
Specifications	Functionality (theoretical)	6	
	Appearance(By vision)	Slightly yellow transparent or slightly turbid liquid	
	Viscosity（CPS/25℃）	4000—6000	
	Color(Gardner)	≤1	
	Efficient content(%)	≥99	
Packing	Net weight 50KG plastic bucket and net weight 200KG iron drum		
Storage conditions	Please keep cool or dry place, and avoid sun and heat; Storage temperature does not exceed 40 ℃, storage conditions under normal conditions for at least 6 months.		
Use matters	Avoid touching the skin and clothing, wear protective gloves when handling; Leak with a cloth when the leak, and wash with ethyl acetate; for details, please refer to the Material Safety Instructions (MSDS); Each batch of goods to be tested before they can be put into production.
